Seminar on Human-Computer Interaction (HCI) Conducted by the Department of Information Technology at Kashmir Government Polytechnic College Srinagar on 10-10-2025.

The Department of Information Technology at Kashmir Government Polytechnic college Srinagar, successfully conducted a seminar on Human-Computer Interaction (HCI) today, providing students with invaluable insights into the evolving landscape of information technology.

The event, held in the Information Technology Department, engaged a diverse group of IT students who gained first-hand exposure to the latest emerging trends in the field. Participants actively deliberated on the advantages and challenges of HCI, fostering interactive discussions that underscored its transformative potential in modern computing.

The seminar concluded with an enlightening address by Er. Inhas Ashraf, In-Charge of the Department of Information Technology. Er. Inhas Ashraf shared critical insights on the responsible disposal of e-waste and the security concerns associated with HCI implementations, emphasizing sustainable practices and robust cybersecurity measures to mitigate risks in an increasingly digital world.

"This seminar not only equipped our students with cutting-edge knowledge but also sparked meaningful conversations on ethical and practical aspects of technology," said Er. Inhas Ashraf. "As we navigate the rapid advancements in HCI, addressing e-waste and security is paramount to building a safer, more sustainable future."

On the occasion, Principal Dr. Shafquat Ara commended the initiative, stating, "This seminar exemplifies our dedication to nurturing innovative thinkers in IT. By exploring HCI's trends, pros, cons, and ethical dimensions, our students are better prepared to lead in a technology-driven future while prioritizing sustainability and security."
